Special Edition

We at Royal Music constantly strive to offer you, our preferred customers, the best service possible. Hopefully, our efforts result in you having as much fun with music as we do. In addition, our service commitment to you must include private notice of unusual saving opportunities.

It is common knowledge that the best organ value available is always recent model trade-ins. These instruments have all the newest features, at a fraction of their original cost. Unfortunately, our supply of organs that fit this description is extremely limited.

Due to the tremendous success selling New

High-End organs, we now have in stock the best selection of recent model trade-ins ever. Virtually every brand is represented *at HUGE SAVINGS.*

Our company policy states that any opportunity which results in instruments being sold at special savings must first be offered to our preferred customers and students.

This selection is a once in a lifetime opportunity to save thousands on the organ you've

always wanted.

This offer is limited to select models and is being offered on a first come, first served basis.
