Spring Lessons Begin April 10th Welcome Home Snowbirds.

All of us at Royal Music would like to welcome home all of you who spent the winter months in warmer climates. We hope your journey south included some music.

Our spring session of music lessons begins the week of April 10th. We are offering a great variety of music classes on all levels of playing. To find out about all the new classes either call us 732-240-2332 or drop by our showroom.

Our teacher, Pat, has been working on the schedule and all of the offerings will be debuted on April 3rd.

There are two specialty courses that are worth mentioning for this spring session. The first is a HYMN CLASS where you can learn to play your favorite Church music. The second class is a timing class where you can improve your timing.

We hope to see many of you attending our music classes. At Royal Music it is time to Swing Into Spring!

You Are Never Too Old For Music

Most adult students are taking lessons because they want to enrich their lives, attain a personal goal, or perhaps fulfill a long-held dream. A lot of students do it for rest, relaxation and therapy from a stressful job. The result is that most adult students are highly motivated to learn. Your teacher should function in the role of a guide and support system as you discover which form of learning is best for you, and which music you might enjoy playing.

The most important tip for adult students is to be patient with yourself. Give yourself the time to learn things and don't get too frustrated if these skills do not come as fast as the kid's do. The finger coordination is not that of 5 yr. olds and it will take a bit longer for this to settle in. Most particularly, don't expect to learn as fast as a 7 year old child; that expectation is unrealistic. Your advantage is the maturity to focus well on the task at hand and really to understand the musical language of the piece you are playing. Hence, chances are you will enjoy it more.

Royal Music is the Jersey Shore's EZ Play Music headquarters. We stock the largest collection of EZ Play Music in New Jersey. With every book in stock everyday we are your one stop source for EZ Play music.

COMING SOON: IN CONCERT ... GENE ROBERSON

Gene Roberson began playing the piano and organ at age 5. Gene first heard the organ in church and after a few years of lessons, took over the organist position at the age of 10.

Gene won top honors in piano and organ competitions in high school. With his love of teaching the organ, he opened his first organ studio in 1972 which included organ clubs and Gene studied with Alexander and is at home of organ music; Organ, Jazz, Gene has the world play-

has inspired various cruises, drums, organ clubs, and music dealers. Gene recently played for the International Young Organist Festival in Palencia, Spain. He continues to play for church each Sunday playing all styles of sacred music. As an arranger and composer, he has co-written over 30 children's musicals, recorded over 15 organ and piano CD's and written several piano arrangement books.

Gene joined Roland Corporation U.S. in the summer of 2005. Gene currently lives in Southern California with his wife. He is a gourmet chef and enjoys spending time with their four Italian Greyhounds.

Just For Laughs

Few women admit their age.
Few men act theirs.

Why do we drive on parkways
and park on driveways?

Success always occurs in private,
and failure in full view.

A clear conscience is usually the sign
of a bad memory.

No one is listening until you make a
mistake.

Are part-time bandleaders
semi-conductors?

If quitters never win, and winners
never quit, what fool came up with,
"Quit while you're ahead?"

If all the world is a stage,
where is the audience sitting?

Why do 'tug' boats push their
barges?

Why do they call it the Department
of the Interior when they are in
charge of everything outdoors?

Hymn Class for Organ 10 Week Course

The organ is sometimes best known as an instrument of praise. Learn your favorite hymns.

**Classes start April
10th at 2 pm**

boards. Any portable key-
board traded in during the
month of April will get an
extra trade allowance.
Come browse our instru-
ments and remember to
bring the make and model
number of your trade in.

"An expert is a person who
has made all the mistakes that
can be made in a very narrow
field." — *Author Unknown*

Meet the Roland Atelier AT-45

With the AT-45 you get a superb organ sound, a large, full-color LCD touch screen and a high-performance sound system. Dozens of exciting realtime performance features from high-end ATELIER models are built into the AT-45, including the same basic operation, panel layout, and console buttons. And it's all housed in a luxurious mahogany cabinet with a sliding, roll-top manual cover.

Realistic Rhythms and Music Styles

The AT-45 puts a wide range of rhythms and musical genres at your fingertips. The built-in Music Styles incorporate actual drum and percussion phrases recorded by professional drummers, for the ultimate playing enjoyment with lively, exciting rhythms.

Versatile Style Orchestrator

The Style Orchestrator buttons provide four arrangement variations that let you instantly change the style of the automatic accompaniment, either to something more elaborate or more simple. Rhythm Customize

The AT-45's Rhythm Customize feature lets you edit the internal rhythm patterns using the LCD display. Adjust the drum pattern, voice, or timing to create your own original rhythm.

The Fine Organ Sounds of Top ATELIER Models

The AT-45 features many of the same great new authentic organ sounds as the top ATELIER models, including jazzy combo organ, gorgeous pipe organ, and theater organ sounds that will satisfy every organ lover. Of course, it also offers a wide collection of instrument, choir, and fun human voice sounds, such as jazz scat, to expand your performance possibilities.

Exceptional Piano Performance

The AT-45's lower manual is an extended 64-note keyboard, and begins with the A note just like a piano. There is also a damper pedal for more acoustic piano-like performance. The lower manual has a Split function, too, so you can play two different instrument sounds at the same time.

Large Color LCD Touch Screen

The AT-45 is the first organ in its class to feature a large, full-color LCD touch screen just like the top ATELIER models. Now even more realtime performance options are at your fingertips.

Seeing is Enjoying

With the colorful LCD touch screen, the Composer and Track Mute functions are easier than ever to use. You can add your performances to commercially-available or downloaded SMF music files and save them, or mute a specific voice or part right on the screen, and play that part. The AT-45 also features Roland's famous DigiScore®, which lets you display the notation of SMF music files or your own recorded songs onscreen. It's loads of fun.

Helpful Quick Guide

The intuitive onscreen Quick Guide gives you fast operational guidance for all the AT-45's formidable features and functions, so you can always enjoy the full potential of your ATELIER organ.

Editor's Note:

The Roland Atelier AT-45 was engineered to compete with other manufacturer's mid range organs. These are instruments that sell in the \$15,000—\$18,500 range. Roland designed and manufactures the AT-45 to be the *BEST IN CLASS*. Simply stated this means you can not find a better instrument for under \$20,000.

Additionally when purchasing your new Roland Atelier from Royal Music you can rest assured that you will learn to use all of the great features and truly understand your instrument. Since 1993 that has been the Royal Music method. The best service after the sale.

At Royal Music we believe our relationship begins with the delivery of your new instrument.
