Make Time For Music

Another New Year has arrived and with it a plethora of broken resolutions.

For those of you who have pledged to improve musically we suggest a music class to stimulate your brain and get your fingers moving.

Many new classes will be starting soon. As an indoor hobby winter is a great time for music.

Remember the Royal Music credo ... Play Music Everyday.

Beyond Your Musical Imagination

Have you ever imagined a keyboard with sounds so real and music styles so alive that it seems like a real band? And how about an attractive design that is a pleasure to look at and use. Now stop looking for such a keyboard! It's time to discover the latest Roland Music Workstation: the E-80!

- A variety of "lively" sounds
- Breathtaking musical contents
- High quality playback of your SMF
- Powerful onboard speaker system
- Attractive cosmetic design
- Vocal harmonist built-in
- Guitar mode
- User-friendly interface
- 2 x expansion slots
- Text and image viewer
- Mastering tools
- An easy computer connection

Drop by Royal Music to experience this tremendous instrument. (take a peak at the photo on the back page)

This Just In ...

**A huge shipment of new songbooks and fakebooks.
Lots of great new songs and lots of old favorites.**

BROWSERS WELCOME

A Great Cause

George Grubb owner of Grubb Brothers Electronics the official service company of Royal Music has been fundraising for a great organization and we'd appreciate our readers' consideration in such a worthy cause.

George's son Andrew is a Lieutenant in the USMC and is in Iraq. The Marines need an update for their helmets that costs around \$70. This update could save a life.

Please visit the Operation-Helmet website and consider a donation of any amount. You can reference Lt Andrew Grubb USMC and your money will go directly to Marines in the field.

Please also remember Andrew in your prayers.

OPERATION HELMET provides helmet upgrade kits free of charge to troops in Iraq and Afghanistan, as well as to those ordered to deploy in the near future. These helmet upgrades do three primary things:

- **Protection** - Shock-absorbing pads keep the helmet from slapping the skull when hit with blast forces, fragments, or being tumbled along the ground or inside a vehicle. This decreases the chance of brain injury from bombs, RPG's, vehicle accidents, falls, etc.
- **Comfort** - If it is comfortable, it will **stay on troop's head** longer and more often.
- **Stability** - Keeps the helmet firmly on the head and out of the eyes.

The life you save might save another!

** Operating Instructions Are Offered On An As Needed Basis ... Royal Music stands behind every instrument it sells regardless of brand

In the music business, the word "Electone" is a trade-marked symbol of the Yamaha Corporation. In simple terms it means "electronic tone" or sound. Electone has always been the brand name of Yamaha's electronic organ instrument line. Over the years, however, Electone has come to essentially mean "playing everything myself" among enthusiasts.

Electone has been described as the world's most complete musical instrument. It combines digital multi-keyboards, drum machine and special effects into a comprehensive performance platform. With practice and determination a player can render incredibly realistic and stirring renditions of almost any style or genre of music.

The Japanese are especially fond of referring to their organ playing talents as simply *playing Electone*.

ROLAND CD-2: CD/CF Recorder

You Can Make Professional Quality CD's At Home

Features

Whether your goal is to record audio and make CDs to present a performance or composition for evaluation, to advance your playing skills with the help of high-tech learning tools, to preserve and archive important audio, or to capture unforgettable moments like concerts or public events, the CD-2 will do the job quickly and simply — and with professional-quality results.

- Stereo recorder for creating audio CDs
- Record direct to CD or store to Compact Flash
- Effects for guitar, vocals, and mastering
- 2 XLR inputs, built-in stereo mic and speakers
- Practice tools with tempo/key change, tuner, and metronome

More Info

Easy Recording

Recording is a breeze on the CD-2. A high-quality stereo microphone is built in for top-grade, on-the-spot recording; additional mics can be plugged in as well. The CD-2 records directly onto CDs. So start playing, and as soon as you're done you'll have a finished, professional CD! For extra long recording times (complete concerts, church services, etc.), the CD-2 offers recording to popular card (CompactFlash) media, and supports up to 2 GB capacity for approximately six hours of recording time at 16 Bit/44.1 kHz linear mode.

Edit Your Recordings!

When recording to CompactFlash, your audio can be edited using functions such as Audio Level Adjustment, Song Erase, and Trim for cutting out silence between songs. Once you have everything the way you want, you can burn your performance directly to CD.

Music-Training Support

Students will appreciate the CD-2's usefulness as an educational/practice tool, thanks to its built-in stereo speakers, speed/pitch control, tuner, and metronome. You can easily record lessons or musical passages, and play them back at a slower tempo while retaining the original pitch. Or change the pitch of the audio and play along indifferent key signatures. The CD-2 provides some great learning advantages for all levels of students.

Convenient Connections

The CD-2 makes it easy to get audio in and out. For ultra convenience, a stereo microphone is built-in, so all you have to do is point and shoot. Or, if desired, you can plug in external mics with the two XLR inputs, complete with phantom power. A pair of RCA inputs and outputs is provided for convenient connection to electronic piano, CD player or stereos; using the 1/4-inch inputs you can plug guitars, mics, and other instruments directly into the CD-2. And if you like, you can use the built-in guitar effects or reverb to greatly enhance your guitar or vocal sounds.

Onboard Effects

Enhance your recordings with the CD-2's lineup of professional audio effects, such as reverb, EQ, and compression. Make your recordings sound more ambient and lush, or punchy and crisp. Special tools are also provided for guitar and vocals, and the onboard Mastering effects help you put the final polish on your audio before you burn it CD. You won't believe how good your recordings can sound, and how friendly the CD-2's tools are to use.

Song Book Of The Month
