SWING INTO SPRING WITH AMAZING SAVINGS !!!

Their Loss Can Be Your Gain: Great Instruments Just Arrived ...

We just purchased an enormous selection of organs and pianos from an upstate New York music dealer. Many different makes and models are available. The largest Lowrey dealer in Albany closed his doors so there are many Lowrey's.

Royal Music bought these instruments at a **huge discount**, and to sell them quickly,

we will pass the savings straight through to our customers.

This is a great opportunity to purchase a fine instrument at a fraction of its original price. (**Some up to 90% off original price!**)

These instruments are offered on a first come, first served basis.

ONE DAY MASTER CLASS

A **master class** is a class given to students of a particular discipline by an expert of that discipline; usually music, but also science, painting, drama, games, or on any other occasion where skills are being developed.

Taught by Jeff Mazza, Troubadour

Since 1984 I've been helping people get the most from their instruments. I am hosting a one day master class to help people improve their playing.

This one day master class is a chance for me to share the tips and tricks I learned over the 30+ years I've been making music.

See inside this newsletter for details.

May 2021

Dear Readers of this newsletter,

Playing music is one of the greatest joys in my life. It's hard to explain the joy making music brings to someone who doesn't play. My career has been spent helping people enjoy making music by improving their playing skills and understanding their instrument in detail.

By transitioning Royal Music from a bricks and mortar store to a "virtual" online store I have less day-to-day interaction with the progress you make in music. My hope is that you continue to make music and hopefully enjoy it as much as I do.

I am holding a **ONE-DAY MASTERCLASS** to help you play a little better and understand your instrument more completely. (See inside for more details).

I just bought the largest single load of pianos, organs and keyboards in my career. (*97 Instruments!*) A dealer in Albany closed his doors and I couldn't pass up the chance to buy out his inventory. You'll see lots of fine instruments at great prices throughout this newsletter. If you've considered upgrading to something a little better, this is a great time to shop.

All our previously owned organs are carefully inspected and serviced by expert technicians. These examinations include the electronic components, tone settings, and structural integrity of the organ's cabinet. This care and attention to detail prevents irreparable organs from entering our used organ inventory.

Investing in a used organ is a cost-effective way to explore the many benefits of playing the organ.
